Medical Emergency Checklist

Attention Students!

Once you turn 18, you have the rights & responsibilities of an **adult** in your medical care. Things to consider:

- Did you sign a HIPAA release providing a family member rights to access medical records in the event that you need help with your medical care?
- Did you consider executing a Medical Power of Attorney?
- Do you carry in your wallet an ID, Medical or Medical Alert Card which includes emergency contacts in case you lose your phone?

Use the [*iPhone*](#) Health app: **Settings-->Health-->Medical ID**

- Is your Medical ID up-to-date and set to allow access by first responders?
- Are your emergency contacts established? They are automatically contacted with your location if 911 is called from your phone. If a *friend* needs urgent help, call 911 from *their* phone.

Attention Parents/Guardians!

If 911 is called on behalf of your child, where will they be taken?

Do you know:

- Where the nearest Trauma Level 1 Medical Center is located?
- What circumstances dictate transport to this highest level of care?
- How you will be notified if your child is involved in a medical emergency on campus? Off campus?
- What medical rights you have if your child is over 18?
- About the quality of the campus medical center? (read reviews online)
- Your child's roommate/parent contact info?
- Who to call on campus in case of emergency?

The College911 Initiative was established in honor of Corey Hausman - a new student at University of Colorado - Boulder whose life came to an abrupt end just 15 days into his freshman year. He fell from his skateboard while traveling on a steep campus pathway, and was unsuccessfully treated at a local medical facility. Corey's passing was the third campus death of the new semester. This medical emergency checklist contains questions and suggestions that his family wish they had considered when planning to send him off to college. Contact info@College911.net or visit our website <https://college911.net/> for more information and updates.
